

Kids Zone Anaphylaxis Emergency Plan: (name) _____

This person has a potentially life- threatening allergy (anaphylaxis) to:

(Check appropriate boxes)

- Food(s): _____
- Insect Stings
- Other: _____

Treatment: other medication:

Dosage: _____ **When to give:** _____

- Epinephrine Auto Injector:** Expiry Date: _____

Dosage: _____

- EpiPen Jr. 0.15mg EpiPen 0.30mg Allerject 0.15mg Allerject 0.30mg

Location of Auto-Injector(s): _____

- Previous anaphylactic reaction:** Person is at greater risk.
- Asthmatic:** Person is at greater risk. If person is having a reaction and has difficulty breathing, give epinephrine auto-injector before asthma medication.

ACTION PLAN

The first signs of a reaction can be mild, but symptoms can get worse very quickly.

1. **Give epinephrine auto-injector** (i.e. EpiPen or Twinject) at the first sign of a reaction occurring in conjunction with a known or suspected contact with allergen. Give a second dose in 10 to 15 minutes or sooner **IF** the reaction continues or worsens (See second page for instructions.)
2. **Call 911.** Tell them someone is having a life-threatening allergic reaction. Ask them to send an ambulance immediately.
3. **Go to the nearest hospital,** even if symptoms are mild or have stopped. Stay in the hospital for an appropriate period of observation, generally 4 hours, but at the discretion of the ER physician. The reaction could come back.
4. **Call contact person.**

Anaphylaxis Policy and Procedure

Policy

Kids Zone Childcare Centre is a NUT FREE CENTRE. No food is permitted in the centre unless authorization by the Supervisor or Director. Some children who attend our Centre could have a severe Allergy to NUTS, EGGS, FISH. This could cause the child to go into Anaphylaxis shock. The safety of all children enrolled in our Centre is a priority. If your Child has allergies and needs to have an epi pen/special medication please fill out the attached form and speak to your child's teacher prior to their start date.

Communication Plan in Centre

Once a child has been identified by a parent as having either a life threatening allergy or anaphylaxis, we will request the appropriate form to be completed with a photo of the child. Once this has been received by the office the centre Supervisor or office assistant will bring the information to each room for staff to read and sign acknowledgment of the plan attached and this information is posted in the child's room. At the same time the allergy would be added to the food allergy list if that is appropriate. When the child begins care the child is brought to the room with the epi pen by the Supervisor or office assistant to confirm plan is in place. The kitchen is separately given a copy of the information and this is posted in the kitchen.

Parent Procedure:

- Notify the Supervisor of your Child's Allergy
- Provide EpiPen and complete attached form.
- A parent will provide training to the teachers/staff in the centre regarding the protocol for treatment of that child in case of an exposure to an allergen.
- The parent may wish to designate a management staff after the initial training of the teachers to then train any further staff or volunteers in the centre that were not able to be present.

Staff/Volunteers Procedure:

- Be aware of the children in each room with a Severe Anaphylactic Allergy.
- Read all information in each individual child's file with Severe Allergies.
- Be aware of all signs and symptoms of each individual child.
- Read each Child's action plan for Special Medical Conditions.

_____ Please mark an X if you wish management staff to be designated to train other staff that may have not been present during the initial training with yourself in the room.
